# Foreign Trade Zone

## Advantages of being in a Foreign Trade Zone

### Duty Deferral

Duties are only paid when imported merchandise enters U.S. Customs territory. Goods may be held without payment of duty in an FTZ until sold, allowing for improved cash flow.

### No Duty on Value Added

There are no duties on labor, overhead, or profit to operations performed within an FTZ.

### Duty Avoidance

There are no duties on FTZ merchandise that is exported, transferred to another zone, or destroyed. This eliminates the need to manage costly and time consuming duty drawback programs.

### Save with One Weekly Entry

Customs allows for weekly entry processing, which benefits importers because they pay a single entry fee and may realize significant MPF savings.

### Duty Inversion

The user may elect to pay the duty rate applicable to the component materials or the finished goods produced from raw materials, depending on which is lower.

### Inventory Tax Incentives

Companies that hold goods in an FTZ may be exempt from inventory taxes.

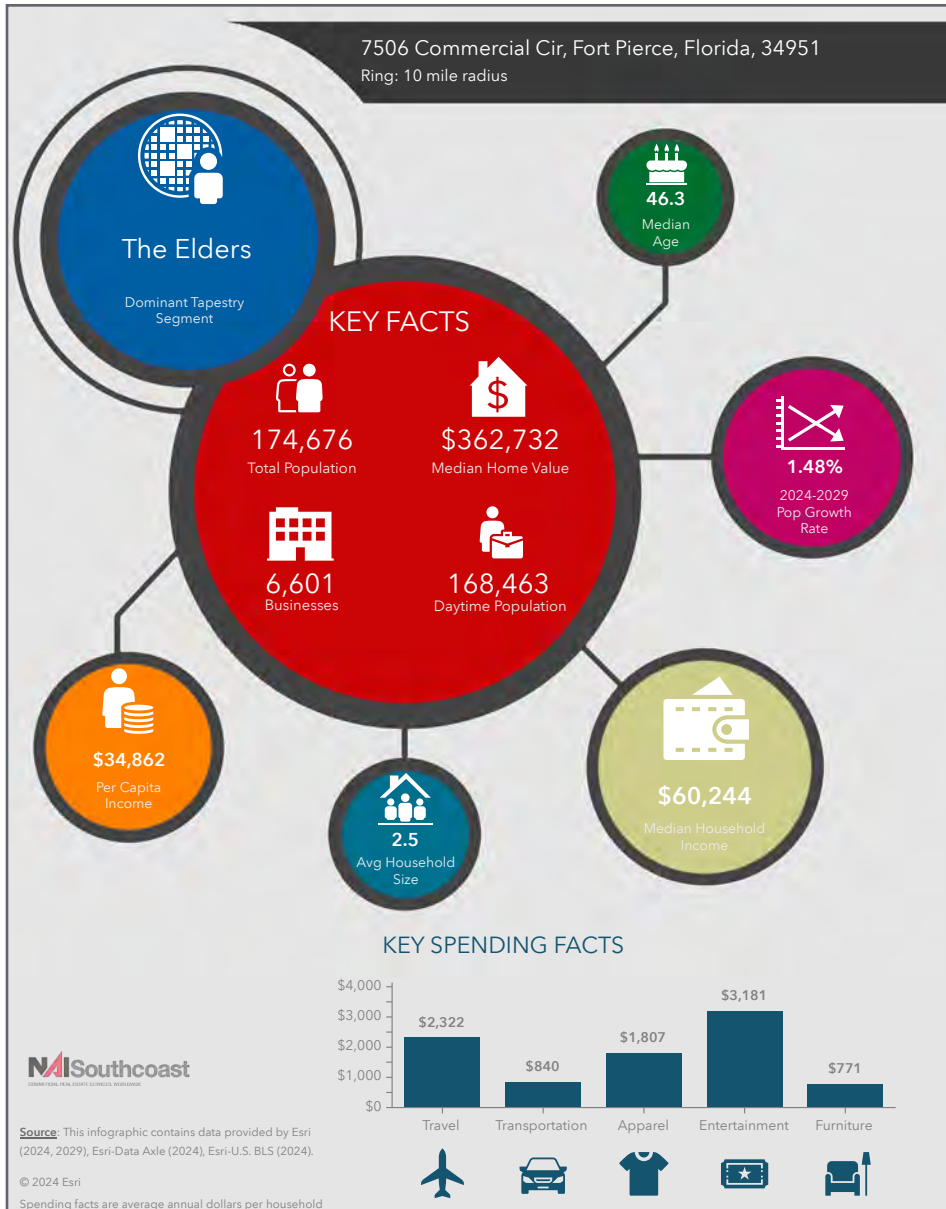

### Enhanced Security

By using an FTZ, the internal controls requirements of the Sarbanes-Oxley Act (Section 404) are met. FTZ and Customs Trade Partnership Against Terrorism (CTPAT) are complementary programs. Participating in both results in increased internal and external security enhancements.
