Office Policy

We are looking to keep our office a professional and comfortable place for everyone using it. We encourage business attire to keep the office looking and feeling professional. People renting the office must meet with the president of the office in a small interview to go over rules and expectations and get squared away before purchasing your office rental plan. We do expect everyone to be respectable, kind, and always use proper office manners. We have a professional, safe, and productive business environment we wish to maintain both for our sake and yours. Feel free to inquire if you have any questions.
