Property Description

4.98 acres located in the desirable Willard Peebles Industrial Park. Directly behind Florida Department of Children & Families and Russell Stover. Property is zoned M-1, which can be used for light industrial uses. Acreage has some stabilized surface and a retention pond has been added. Future land use is industrial. Approximately 352 feet of frontage on Industrial Drive and 570 feet of frontage on the paved road on the south side of the property. There is a 10" water main along Industrial Dr. in front of the property. An 8" sewer line runs along the same route in front of the property. It also appears that a 4" lateral sewer line runs to the property from the existing 8" but would need verification. The 3,400-acre Monarch Ranch to the South of the property recently sold with plans for development. The Villages is to the East and South. Close to major highways such as US Hwy 301, the Florida Turnpike and I-75. It is approximately an one hour drive to Tampa and Orlando.
