## SPACE COAST MARKET

### WHY THE SPACE COAST?

Florida's Space Coast is a world-renowned aerospace, aviation, and manufacturing hub. The city is home to major aerospace and aviation companies, such as Northrop Grumman, L3Harris Corporation, Collins Aerospace, Embrear, Dassault Falcon, Thales, Satcom Direct, and more who are all contributing to the region's reputation as a key player in the manufacturing, defense, aviation and aerospace sectors.

Located in the southern region of the County lies Melbourne International Airport (MLB) which serves as a crucial asset for transportation. With over 20,000 people working on the airport grounds everyday it is said to be America's fastest growing aviation and aircraft manufacturing center, contributing almost \$3 billion to the economy annually.

The Space Coast is also one of the nation's 10 most undervalued housing markets, according to a recent report by the National Association of Realtors, and was ranked #4 on U.S. News & World Report's recent ranking of the top places to retire in the U.S. It has also been voted the #10 best place to live in the United States and over the last five years has brought in over 10,000 high tech jobs and a skilled labor workforce.
