PROPERTY DESCRIPTION

Location & Market Context

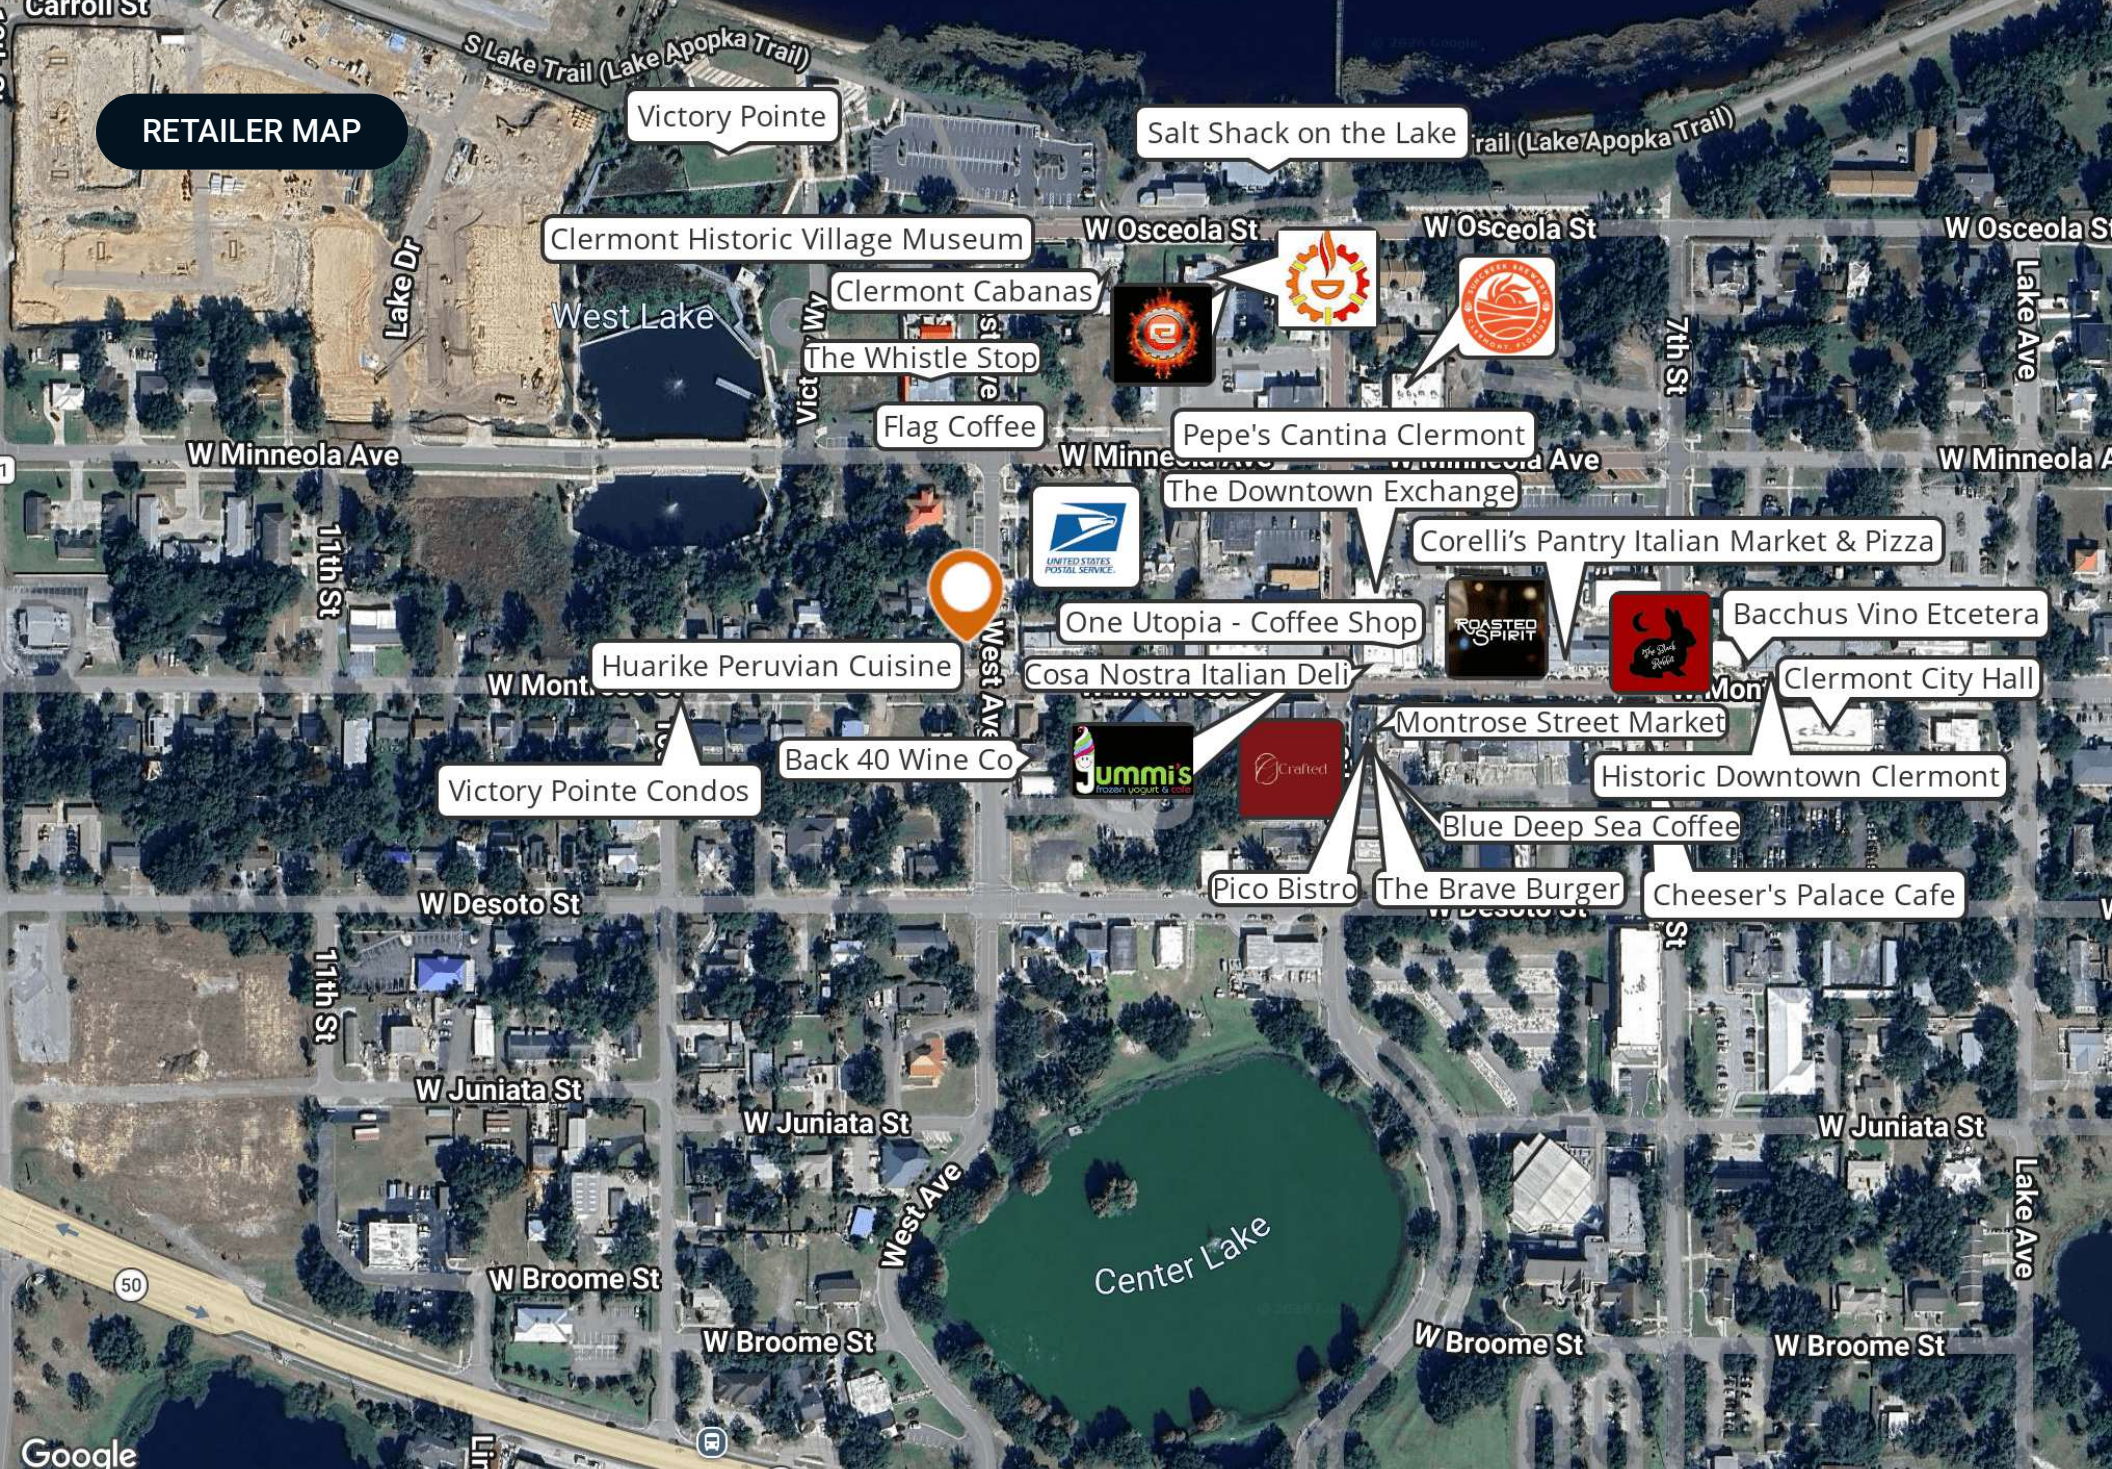

The property sits steps from the South Lake Trail, a Rails-to-Trails conversion and the backbone of Clermont's identity as a nationally designated Trail Town. The South Lake Trail connects with the West Orange Trail to create 36 miles of continuous paved multi-use trail, positioning Clermont at the midpoint of Florida's 250-mile Coast-to-Coast Trail linking the Gulf to the Atlantic. This corridor is projected to generate more than \$120 million in annual economic impact statewide, and West Avenue properties capture that daily foot and wheel traffic directly. Downtown Clermont's waterfront is anchored by Lake Minneola—the crown jewel of an 11-lake, 10,000-acre Chain of Lakes. A new fishing pier and daytime docking facility are under development to give waterborne visitors direct access to the downtown business district. Boaters, anglers, cyclists, triathletes, and families arrive from across the region, driving local commerce. Additionally, a new 12.3-acre mixed-use development is underway adjacent to Victory Pointe Park, bringing 392 residential units and 55,000 SF of entertainment and commercial space to the immediate area.

Clermont is designated a "Bicycle Friendly Community," "Runner Friendly Community," and "Trail Town," having drawn world-class endurance events for over 34 years. 644 West Avenue sits at the intersection of it all: the trail, the waterfront, the investment, and the growth. This market continues to attract capital, residents, and commercial activity at an accelerating pace—and this address places an owner or operator precisely at its center.

Strategically positioned minutes from Highway 27, State Road 50, and Florida's Turnpike, this property sits approximately 30 miles west of Orlando in Clermont — one of the fastest-growing cities in Central Florida and the nation

Professional Background

Marvin Puryear is a Senior Advisor at Saunders Real Estate, specializing in development land with a proven track record of large-parcel transactions across Central Florida.

Primarily focused on Lake, West Orange, and surrounding counties, Marvin works at the intersection of institutional-grade deal execution and deep local market intelligence. He represents landowners, developers, and institutional clients in the sale of development land ranging from single-product parcels to multi-use assemblages exceeding 400 acres. Developers, national homebuilders, and major lenders call Marvin first, not because he has the biggest database, but because he knows which deals are viable before a contract is ever drafted.

The Orlando Business Journal has quoted Marvin in more than 58 articles since 2020, more than any other broker in Lake County. He has been the go-to market voice on Clermont growth, the Wellness Way corridor, Groveland industrial demand, and development land absorption across the I-4 west corridor. In 2023, OBJ formally recognized him as a "Power Player."

Marvin is a preferred commercial broker for many major national and regional banks for REO asset valuation and disposition throughout Central Florida. He has served as an expert witness in large-scale property valuation matters presented before city councils and county commissions throughout the region.

Before joining Saunders Real Estate, Marvin spent 20 years building and running two internationally franchised brokerages simultaneously: ERA Professional Real Estate Services, a 60–80 agent office ranked as high as Top 5 in the United States and Top 50 internationally, and Coldwell Banker Commercial Atlantic Properties, where he served as Broker of Record and produced consistent top-ranking commercial sales in Lake County. Both firms were sold in 2014.

Prior to his real estate career, Marvin spent 10 years in corporate management in Chicago, including National Marketing Director at Tripp Lite, Operations Manager at CompUSA, and Regional Manager at Lifetouch. That background in national marketing, operations, and regional market strategy runs directly through the way he approaches commercial brokerage today.

Marvin's practice is built on a single premise: a seller's land is only worth what a qualified buyer will pay, and a qualified buyer is only found when the asset is properly positioned, priced, and marketed to the right capital sources. He evaluates highest-and-best use before a property goes to market, identifies the buyer pool most likely to close, and structures transactions to minimize contingency exposure and maximize net proceeds.

Marvin specializes in:

- Residential Development
- Commercial Development
- Retail
- Office
- Industrial
