Property Description

PROPERTY DESCRIPTION

The ±1.79-acre site presents an opportunity for a commercial or service-oriented user seeking a presence at a high-traffic interchange. A portion of the frontage is currently utilized for drainage by FDOT, which should be considered in site planning; however, the property remains functional for the right development concept. Given its size and configuration, the site is best suited for a user who can design efficiently around existing conditions, such as a contractor yard, service use, or small-scale commercial operation. This offering provides a strategically located site within a growing corridor at an attainable scale for a variety of users.

LOCATION DESCRIPTION

The subject property is located in Hernando County at the southwest corner of State Road 50 and the Interstate 75 interchange, offering excellent regional connectivity to Tampa and Central Florida. The area is experiencing continued growth, with surrounding residential, industrial, and commercial development reinforcing this interchange as a key corridor for future expansion. The site benefits from strong visibility and proximity to this ongoing activity.
