The location of the right-of-way for Highway 50 across the northeast portion of this property is monumented as described in a deed to Mesa County recorded February 10, 1938 in Book 357 at Page 36. The as-constructed location of the highway and other survey markers are in conflict with this deed. Other surveys in the vicinity show nothing to support their right-of-way location. There appears to be insufficient information as to the intended location of the original right-of-way or the 1938 location of the northeast 1/16 corner to which this deed is tied, to invalidate the deed description.

This survey does not constitute a title search by this surveyor or Thompson-Langford Corporation. All information regarding ownership, rights-of-way, easements of record, adjoining, and other documents that may affect the quality of title to this property is from a title commitment prepared by Abstract & Title Company of Mesa County, Inc., No. 00909614A C2, dated January 25, 2004.

There is an easement to City of Grand Junction disclosed in Warranty Deed in Book 274 at Page 353 for pipeline at an unspecified location in the E3/4 SW1/4 NE1/4 of Section 26.

The Orchard Mesa Drain forming the northwesterly boundary is considered a natural boundary subject to movement due to the action of the water and was not monumented. The approximate centerline of the Drain was determined by field measurements and is shown as such for the calculation of area of the time of survey only.
