Property Overview

This 1,760 SF block-constructed office building offers a flexible layout with the potential to accommodate two separate tenants. The building features six offices arranged around a central area containing a bathroom and kitchen. The two sides of the building are nearly mirror images of one another, creating an efficient configuration for shared reception space with each tenant occupying its own side of the building.

The front entrance provides a traditional reception and waiting area, while the open configuration offers flexibility for an owner-user to customize the space to suit its specific needs.

Although the property does not currently have formal parking spaces, the front and side areas can accommodate approximately 6–8 vehicles. The addition of millings or stones could easily formalize the parking area and improve vehicle circulation.

The property is zoned BPC-1X under Polk County zoning. A continued office use represents a logical and desirable use for the property, while a variety of other uses may be permitted subject to County approval, including personal services and certain institutional uses such as a church. The property's most recent use was as a Homeowners Association office.

The property is served by public water and a septic system.

From a location standpoint, the property offers excellent connectivity to major roadways, including US 98 with convenient access both north and south. The Polk Parkway is just minutes away, providing efficient connectivity to Interstate 4 and the broader Central Florida transportation network.
